

A new book from the

**International Society for Quality of Life Research**

## **Advancing Health Outcomes Research Methods and Clinical Applications**

Edited by William R. Lenderking & Dennis A. Revicki

ISOQOL is pleased to offer a volume of invited papers from the recent Symposium “Stating the Art: Advancing Outcomes Research Methodology and Clinical Applications,” which captures the heterogeneity, science, and creativity of our field.

The papers are not direct transcripts the talks presented, but rather chapters inspired by the presentations delivered at the Symposium. In organizing this symposium, we sought to create a program that illuminated the state of the art of health outcomes research from the perspectives of statistical methodology, clinical applications, and theory. Rather than attempting to cover the entire breadth of the field, our aim was to invite leading investigators and thinkers in their field of specialization. The end result is this volume, which is available at the price of \$80 for ISOQOL members and \$95 for non-members. Bulk discounts are available for orders of 100 copies or more (for details, please visit [www.isoqol.org](http://www.isoqol.org), or call the ISOQOL Executive Office at 703-556-9222, or email [info@isoqol.org](mailto:info@isoqol.org)).

Please send me \_\_\_\_\_ copies of *Advancing Health Outcomes Research Methods and Clinical Applications* at **\$80** member price/ **\$95** non-member price (please circle).
