

ISOQOL Affiliate Organizations

Organizations independently organized outside of the Society can apply to be affiliated with ISOQOL. A memo of request to be acknowledged as an affiliate organization needs to be forwarded to the Executive Director who will then submit it to the Board of Directors for review and approval or disapproval.

An affiliate organization should have a similar mission to the Society. Affiliate organizations agree to advertise ISOQOL events to its members, per its own approval process. ISOQOL will advertise events of the affiliate with approval from the Executive Committee and/or the Board of Directors. Affiliate organizations are not allowed to use the ISOQOL logo or name without express prior permission of the Society's Executive Committee and/or Board of Directors.

We believe it is important for ISOQOL Affiliates to communicate their activities to ISOQOL. Options for doing so will be articles in the ISOQOL Newsletter, Affiliate posters near the ISOQOL Registration desk at annual meetings, and reports to the ISOQOL Board of Directors (annually, one such type of report will be required).

An affiliate organization may request to end its affiliated status with ISOQOL at any time. The ISOQOL Board of Directors may decide to end its affiliation with an organization at any time with a majority vote.

If your organization is interested in becoming an Affiliate Organization, please send an e-mail to info@isoqol.org with your request.
