

2019 ANNUAL REPORT

SIG/Committee Name: Response Shift SIG

Date: January 28, 2019

Co-Chairs: Tolulope Sajobi and Lene Kongsgaard Nielsen

Board Liaison: Antoine Regnault

Mission: The purpose of the response shift interest group is to bring together investigators and clinicians who are interested in the influence of response shift (a change in an individual's values, internal standards, and conceptualization of QOL) on QOL assessments. The ultimate objective is to better understand when and why response shift occurs such that healthcare professionals and researchers using patient reported outcomes across various disciplines can recognize and account for response shift.

Number of SIG Members: 137

Project/Objective	Actions/Deliverables	Project Chair	Project Members	Timeline
Dissemination of the Knowledge of Response Shift Methods (Knowledge Translation Project): <u>Objective</u> 1. To develop, implement, and evaluate knowledge translation resources and strategies to facilitate the utilization of DIF and RS analysis methods by knowledge users (.e.g, researchers, clinicians, methodologists, analysts)	Qualitative interviews with methodologists Development of knowledge translation materials from different groups.	Richard Sawatzky and Lisa Lix	Veronique Sebillé, Qluwagbohunmi Awosoga, Emre Yucel, Jan Boehnke, Hongmai Wang, Jeanne Landgraf, Jean-Benoit Hardouin, Chengwu Yang, Clayon Hamilton, Jessica Roydhouse and Oluwaseyi Lawal, Tolu Sajobi	Fall 2019
<u>Objective</u> The overall objective is to critically evaluate response shift research in QL to date, with three key questions: What do we know? What are the gaps in our knowledge? What future research is needed?	Project Description Project participants will be divided into four groups to work on different aspects of the project including <ol style="list-style-type: none"> 1. meta-analysis group 2. theoretical definition & underpinnings 3. operationalization and detection of response shift, and 4. implications for decision making Deliverables <ol style="list-style-type: none"> 1. A series of papers highlighting the state of art of response shift research from each working group 2. Reconciliation of different definitions, theoretical viewpoints, and detection-based operationalization of response shift 3. A research agenda at the end of each paper outlining future research strategies to fill in the gaps identified in these papers. A face-to-face meeting of the working group members is being proposed to be held in the Netherlands	Mirjam Sprangers	Veronique Sebillé, Lene Kongsgaard Nielsen, Sandra Noltes, Lisa Lix, Tolu Sajobi, Richard Sawatzky, France Oort, Nancy Mayo	Fall 2019 – Summer 2020

2019 ANNUAL REPORT

1. Response Shift Symposium	A symposium organized to show case on-going theoretical and methodological advances in response shift research at the upcoming ISOQOL meeting	Tolu Sajobi, Lene Kongsgaard Nielsen	Speakers will include Carolyn Schwartz, Leah McClimans, Femke, Bruno Zumbo, Richard Sawatzky, Antoine Vanier Actions: Symposium proposal and abstracts to be Submitted by January 31st	Fall 2019 (ISOQOL meeting at San Diego)
