Poster presentation information for

## USING PROS IN CLINICAL PRACTICE CONFERENCE

**June 24-26, 2007  
Budapest, Hungary**

We appreciate your role in making the ISOQOL poster sessions a highlight of the upcoming meeting. A poster presentation consists of research highlights that are visually presented on a moveable display.

**The area for displaying poster materials is 3 feet high by 3 1/2 feet wide, or 97 cm by 115 cm.**

The poster boards you will be displaying your work require you to use **removable adhesive such as “patafix”** to set your poster up. **Please do not exceed the space allotted!** You may bring your poster already assembled, or you may bring items to be individually posted. Don't forget to bring **removable adhesive!**

The final program, which you will receive at the meeting, will have individual poster assignment numbers for each poster that corresponds with a poster board. Please mount your poster next to your number.

Here are a few hints for good poster presentations:

- ◆ Make your poster simple and eye-catching.
- ◆ Use few panels.
- ◆ Use large print and a minimum of text.
- ◆ Graphs and statistical data are typically of interest.
- ◆ Try to have an introduction and summary panel.
- ◆ This is an international organization and not all attendees will be fluent in English. Keep abbreviations and jargon to a minimum.
- ◆ During the Meet the Author session, stay with your poster so attendees may confer with you.

If you have any questions, please feel free to contact the ISOQOL Executive Office (703) 556-9222 or email us at [info@isoqol.org](mailto:info@isoqol.org). Thanks and we'll see you in Budapest.
